

Strategies 2.0

Strategies 2.0 is a catalyst for the professional skills, organizational structure, and community relationships necessary to mitigate the risk factors for child abuse and neglect, and to promote child, family, and community well-being.

We provide an integrated learning system that includes **TRAINING, CONSULTATION, and NETWORKING** for the family strengthening field.

Case Management Essentials

Case management can no longer be viewed as simply providing direct services to individuals. In order to support long-lasting change, it is imperative for staff to work collaboratively with individuals, families, neighborhoods, and the communities in which they reside. In this full day training, you will develop an understanding of the key elements for building strong families and communities.

Cost: Free
