

Curious Parent Forum

The Dance of Attachment: How to safeguard and heal your child through bonding

The Curious Parent Forum is a one-hour forum that provides parents the opportunity to get answers to questions they may be curious about. Parenting is far from easy, and often times there is so much information at our fingertips that it can be confusing and overwhelming. The C.P.F. allows parents the opportunity to ask local experts direct questions about relevant parenting topics.

Come join us at the local Arroyo Grande Library for this month's guest expert!

Learn the value of attachment and bonding in the caregiver child relationship. Explore ways you can foster connection with your child and overcome challenges that may be impacting your bond.

Guest Expert: Ron Huxley – Licensed Marriage & Family Therapist

Ron Huxley is a national trainer on parenting, attachment and trauma with 30 years of experience. He is a local family therapist and author of the book, "Love and Limits: Achieving a Balance in Parenting."
